

# EXPRESS Earth Day 2017

**Indigenous cultures celebrate earth practices as an integrated way of life—  
Earth Day can raise awareness for others.**

In keeping with the continuity of the IEATA Conference theme, the “Indigenous Roots of Expressive Arts Therapy,” we invite you to submit videos or photos of native celebrations and practices. We will post these on the IEATA Educational Resources online site.

Through our online sharing of artwork, multimodal processes, and world traditions to honor the earth and the season of new growth, we have a rich opportunity to learn new forms of creative eco-expression from each other.

We look forward to hearing your thoughts  
and welcome your contributions!

[resources@ieata.org](mailto:resources@ieata.org)

As we reflect on IEATA’s mission, let’s focus on how Educational Resources blog and Earth Day event can serve as a site not only for connection, renewal, and enlightenment but also as the artist’s heart of resilience
